about . us

DELAMO is Design, Engineering, and Logistics for Accountable Manufacturing Opportunities that are fiscally and environmentally sound. We manufacture products with people in mind.

DELAMO's unification of positive culture and talented people, who have produced innovative designs for over 20 years, has resulted in dozens of patents and hundreds of successful products.

Accountable Manufacturing Opportunities refers to our ultimate goal, which is to continue to improve the quality of life for ourselves, our clients, and the greater community. Our Manufactured goods are proudly made by people who care about the quality of the products we produce; we use sustainable materials whenever possible because it reduces our ecological footprint protecting the environment we work and play in; and we keep a responsible eye trained on our investments because we are concerned about the future of our employees, clients, and the global community.

Delamo Mission Statement: Our Goal is to produce useful products that are responsibly manufactured in order to increase the value to the merchant and the consumer.

DELAMO, we manufacture products with people in mind. **Join the team!**

Patented Item

Locmop® is the original twist and lock self-wringing mop. The patented click and button release is unrivaled in the industry. Using a special yarn blend engineered to absorb 70% more water and the easy to use locking mechanism wrings out more water than other mops.

Locmop® Twist Mop

Our patented self-wringing device makes the Twist Mop easy to wring without struggling. Select Cotton & Rayon are blended for higher absorbency and longer durability. The Twist Mop has a unique patented design that extends continuous loop yarn and reduces drying time by up to 50%. It also wrings out 70% more water than other self-wringing mops.
