

Introducing the New touch-free hand sanitizer dispenser & floor stand system

item# 18821
High-Capacity Touch
Free Plastic Hand
Sanitizer Dispenser

With its sleek modern design, low maintenance features, and durable components, this carefully engineered, **high-capacity touchless dispenser** blends seamlessly in any environment while effectively reducing the spread of germs.

Create safe and strategic hygiene stations in your school, office, and other high-traffic space with the optional steel **Floor Stand**. Features a small footprint design and strong stable base to prevent tipping without taking up valuable space. **Easy 1, 2, 3 assembly right out of the box.**

- **High-capacity, visible tank** for easy fill maintenance (1700 ML) secured by lock and key.
- Molded in **high-grade, durably** engineered plastic
- Wall-mount or use with **optional steel floor stand**
- Compatible with **gel sanitizer or liquid soap**
- Programmed to consistently deliver an accurate amount of sanitizer using **Infrared Technology**
- **Unique Battery Compartment** drops down for swift battery change. Requires four C-batteries (not included)
- Operates on an efficient motor that **minimizes battery waste and maintenance**
- **LED battery indicator** displays green for sufficient power and red for low battery
- **Drip tray** to contain possible spills
- **Private labeling available** on both dispenser and stand
